Part 1

Excursion Plan

(Tips: Select a location in your local area suitable for an excursion experience for children. Provide a detailed context of the chosen location and explain why it is suitable for children).

Location

(Tips: Provide 5 photos of the learning environment selected for the excursion with explanatory captions).

All photos must be taken by you specifically for the purpose of this assessment. You are required to visit a space outside your home and intentionally plan a learning experience in that environment. AI-generated images or images taken from the web are not permitted. Submitting unauthorised images will result in a failed grade for this assessment.

Part 2: Planned Experiences

Experience 1

(Tips: Ensure that the learning experience is play-based, engaging and interactive, with a focus on promoting children's development).

Name of experience	(Tips: Select an experience and name it)
Age group	
Learning objectives	(Tips: What is the expected learning? How will this learning experience support children's learning and development?)
Resources needed	(Tips: you are going for an excursion so your backpack might have 1 or 2 resources – a bedsheet to make a fort, for example, or a magnifying lens. Using resources is not mandatory – use your imagination)
Implementation	(Tips: How will you set the environment and implement the experience? What pedagogical strategies will you use? It can be written as a step-by-step guidelines)
Link to the framework (EYLF) & theories	(Tips: What EYLF learning outcomes, principles and practice does this experience relate to? Which theories does this experience align with? Explain)
Photo of the planned learning experience	

Part 2: Planned Experiences

Experience 2

(Tips: Ensure that the learning experience is play-based, engaging and interactive, with a focus on promoting children's development).

Name of experience	(Tips: Select an experience and name it)
Age group	
Learning objectives	(Tips: What is the expected learning? How will this learning experience support children's learning and development?)
Resources needed	(Tips: Provide a list of resources required for the experience- this should include natural materials, recycled materials and provocations such a picture book related to what you are setting up)
Implementation	(Tips: How will you set the environment and implement the experience? What pedagogical strategies will you use? It can be written as a step-by-step guidelines)
Link to the framework (EYLF)	(Tips: What EYLF learning outcomes, principles and practice does this experience relate to? Which theories does this experience align with? Explain)
